

## SINGLE SATELLITE

### ✓ *DIRECTV 3X4 MULTI-SWITCH* **DTV3X4**

3 in 4 out multi-switch (no power supply needed)  
2 LNB inputs (13/18) and one antenna input (non-amplified)  
with 4 outputs. High quality, low profile die-cast case and high  
reliability diode steered switching.

### *4 WAY MULTI-SWITCH WITH OPTIONAL POWER SUPPLY* **S-2140-CE+ (OEM Opportunities Only)**

2 LNB inputs (13/18) and one antenna input (non-amplified)  
with 4 outputs. High quality, low profile die-cast case and high  
reliability diode steered switching. Optional power supply  
provides 13V and 18V to LNB.

### *2X8 RACK MOUNT MULTI-SWITCH* **S-2080RP-GX**

2 in 8 out multi-switch (Rack mounted, pin diode)  
with power supply.

### *8 WAY MULTI-SWITCH WITH POWER SUPPLY* **S-2180A-LX**

This low cost, high quality multi-switch features 2 LNB and  
1 UHF/VHF input and 8 outputs. Utilizes state of art diode  
switching to ensure long life. Heavy duty diecast case and  
surface mount technology ensure excellent insertion loss,  
plug-in return loss, and isolation specifications. Comes with power  
supply for supplying 13/18V to the LNB.

### *16 WAY WALL MOUNT MULTI-SWITCH* **S-2060-GX**

The S-2060-GX multi-switch features 2 inputs (LHCP/RHCP)  
and 16 independent outputs with power supply. Low cost unit  
featuring the high reliability of surface mount technology.
