Splice Compartment – Terminal Closure (Dual Chamber) with Internal Bulkhead

**Drop Cable Chamber – Terminal Closure (Dual Chamber) with Internal Bulkhead**

The COYOTE Terminal Closure (Dual Chamber) is the choice for network designs requiring ultimate flexibility. The unique dual chamber design provides two distinct chambers that can be configured differently to support externally mounted OptiTap™ style hardened adaptors, internally mounted cross-connect bulkhead connections or a combination of both. A window designed within the closure interior allows fibers to be passed between chambers. High drop capacity from each of the eight cable ports and the ability to use standard or hardened adapter covers, provides infinite options to support your network design.
