

Expandable to Support Various Cable Diameters

Ease of Installation - (no tapes, washers, or glue required)

Multiple Layers of Sealing Protection

Peel and Seal Grommet Systems™ for Sealed Fiber Optic Closures

To further enhance AFL's Sealed Closure product, AFL Telecommunications in conjunction with Mar-Don Corporation has developed a new cable sealing grommet technology for the AFL Sealed Fiber Optic Closures called "Peel and Seal". The improved sealing technology utilizes MULTICENTRIC® Grommets to eliminate the need for the time consuming task of installing washers and messy sealing tapes for cable entry. By using conversion kits, the standard LG100-U-0, LG200-U-0, LG300-U-0 and LG300XL-U-0 closures can utilize this exciting new grommet technology without requiring a special closure. The new closures, LG-150, LG-250, LG-350 and LG-350XL, are equipped with the Peel and Seal system. The kits are configured in single cable and dual cable entry into the same cable port. MULTICENTRIC® Grommets are designed to accept a wide range of cable diameters without ordering a specific diameter grommet. At this time, only single cable seals are available.

Features

- All Peel and Seal Grommet Systems support loose tube, core tube, dielectric and armored cable designs
- Installation and re-entry using common hand tools
- Accepts wide range of cable diameters
- Fast and easy to install
- Fits existing AFL sealed closures
- Fully sealed to protect fiber and splices ensuring longevity
- Full conversion kits and dual cable entry port kits
- Designed and tested to Telcordia™ GR-771 & RUS 515 closure requirements

Ordering information – Sealed Closure Full Conversion Kits (Single Axis Cable Entry)

PART #	DESCRIPTION
FC000322	Grommet Kit for LG100 or LG200. (Single cable axis) Cable Diameter Range 0.25" min. to 0.65" max Kit includes sealing grommets, cable retention grommets, band mic and lubricant for five ports
FC000333	Grommet Kit for LG300. (Single cable axis) Express Cable Port Diameter Range 0.38" min. to 1.00" max Drop Cable Port Diameter Range 0.25" min. to 0.83" max Kit includes sealing grommets, cable retention grommets, band mic and lubricant for five ports
FC000001-PS	LG-150 Sealed Closure with new Peel & Seal Grommet Kit
FC000002-PS	LG-250 Sealed Closure with new Peel & Seal Grommet Kit
FC000009-PS	LG-350 Sealed Closure with new Peel & Seal Grommet Kit
