Multiplexers and Band Separators/Combiners

Blonder Tongue's multiplexers are designed to combine or separate the various bands of frequencies used in RF distribution systems. Several models are available, including: VHF LB & VHF HB split, VHF & UHF split, and sub-band & CATVsplit. The compact passive units exhibit low insertion loss and high isolation.

○ Features & Benefits

- Models Available in VHF Low/Highband, VHF/UHF and Sub/CATV
- Low Insertion Loss
- Superior Isolation
- Compact Housings
