For 1.0 meter and smaller antennas

The Deluxe Wall/Roof Mount features fully adjustable “turnbuckle” braces for ease of installation.

Deluxe Wall/Roof Mount Model 610022002

Skyware Global’s Deluxe Wall/Roof Mount has been specifically designed for our 75 cm, 84 cm and 1.0 meter antennas. Mechanically tested and field proven, this quality constructed mount meets the performance requirements of demanding commercial applications.

This mount can be secured to a flat roof, pitched roof or vertical wall. The mount components are pre-galvanized steel and the hardware is plated with a polymer coating for excellent corrosion resistance.

Model 610022002 has a 60 mm (2.38”) O.D. mast that fits the 75 cm and 84 cm antennas. This wall/roof mount can be used with the 90 cm and 1.0 m antennas when configured with the optional 60 mm (2.38”) Az/EI cap.

The Deluxe Wall/Roof Mount features fully adjustable “turnbuckle” braces for ease of installation. This mount can be leveled and easily plumbed after installation—even with the antenna in place.

Antenna	Maximum Wind Loading	
	Roof	Wall
75 cm	117 mph	113 mph
84 cm	98 mph	95 mph
1.0 m	89 mph	85 mph
