

# 60CM DTH Satellite Dish

## Product Specifications

### Description

The Multicom MUL-60CM-KU Direct to Home (DTH) Satellite Dish provides strong, clear reception. This high quality dish is designed to withstand high winds, minimize rain fade and improve signal strength. Made with high strength galvanized steel, it's simple to assemble and install, making it a excellent choice for cost effective installations.

| SPECIFICATIONS              |  |
|-----------------------------|--|
| Model                       | MUL-60CM-KU - Direct to Home (DTH)         |
| Type                        | KU Band - Offset-fed, Elliptical           |
| Thickness                   | 0.6mm                                      |
| KU band gain                | 36.67 dBi (min) @ 12.5 GHz                 |
| F/D ratio                   | 0.60                                       |
| Efficiency                  | 80% (min)                                  |
| Frequency range             | 10.7 - 12.75 GHz                           |
| Focus distance              | 360mm                                      |
| Material                    | Low weight, high strength galvanized steel |
| Surface                     | Electrostatic powder coated                |
| LNB holder                  | 40mm                                       |
| Mount type                  | Universal wall/floor/roof mount            |
| Angle of elevation          | 0 - 90°                                    |
| Max. Operational Wind Speed | 90 km/hr                                   |
| Ambient temperature         | -40°C to +60°C                             |
| Relative humidity           | 0% - 100 %                                 |
| Wind tunnel tested design   | Yes  |
| Salt spray tested finish    | Yes  |
| UV durability tested finish | Yes  |
