

Multicom's Fiber Optic Passives

Multicom manufactures a large selection of singlemode and multimode fiber optic Jumpers and Pigtails with a selection of industry standard connectors.

Features:

- » Custom lengths
- » 2mm jacket for more flexibility and capacity in tight spaces
- » Meets all standard panel interfaces
- » All cables serialized and test results are recorded
- » High bandwidth, high tensile strength, small bend radius

Applications:

- » Trunking lines direct to telecommunication closets
- » Fiber patch panel within communication closets
- » Links between electronic equipment and fiber patch panel

Every Multicom **Jumper** and **Pigtail** is guaranteed to be polished to exceed the industry standard. All connectors are manufactured with ferrules made of zirconia.

No matter what type of fiber passive you are looking for - Look to us first!

Mating Sleeves and Attenuators

Mating Sleeves with high-precision sleeves enable reliable mating of the ferrule diameters, ensuring low insertion and return loss. Available with all standard connectors.

Fixed-value **Attenuators** reduce the signal level without appreciably distorting the waveform. Available in 1 dB increments. Available with all standard connectors.

Multicom's line of fiber optic passives also include high quality and cost-effective splitters including tube, box, cassette, and rack-mounted varieties. See our web site for details.
