4024-D Fiber Optic Dome Closure

The Multilink Starfighter 4024-D Fiber Optic Dome Splice closure is an “all parts” inclusive hermetically sealed splice enclosure designed for ease of assembly and re-entry. The closure is designed with a gasketed split end plate for midaccess cable applications and an easy to install “no special tool” sealing system. All major hardware is factory installed to allow for quick field installation. Universal Multicentric* Grommets along with compression style lateral or branch cable seals, makes installing the enclosure easy. The 4024-D is a small capacity closure that can be used in aerial, pedestal, and underground applications.

*Multicentric is a Registered Trademark of Mar-Don
