4048-D Fiber Optic Dome Closure

4048-PED Split Based Pedestal

The Multilink Starfighter™ 4048D Fiber Optic Dome Splice Closure is an “all parts” inclusive hermetically sealed splice enclosure designed for ease of assembly and re-entry. The closure is designed with a gasketed split end plate for mid-access cable applications and includes an integrated slack storage basket, interlocking splice trays via a modified keyhole style stacking module, and an easy to install no special tool sealing system. All major hardware is factory installed to allow for quick field installation. Universal Multicentric* Grommets along with compression style lateral or branch cable seals, makes installing the enclosure easy to assemble. The 4048D is a medium capacity closure that can be used in aerial, pedestal, and underground applications.

*Multicentric is a Registered Trademark of Mar-Don
