RNI High Security Locking Systems For Roughneck Steel Enclosures

The MX High Security Customized Locking System-DX Compatible

- The most secure lock ever developed specifically for the Cable TV industry
- Fully compatible with pre-existing DX keyways.
- The MX Locking System, unlike the DX Meter and Superlock Systems, cannot be defeated by being drilled or bored out with a power drill or by the "car thief" slide hammer
- The unique, patented dual pin design makes the MX the most reliable lock in the industry

12708K	RNBT-7 Tap Bracket	Each

Why does Multilink use Galvanealed Steel vs. Aluminized Steel in the construction of our Steel MDU Enclosures?

Gavanealed Steel - Starzinc-Alloy

Features

- Uniform zinc coated steel sheets feature paint adhesion quality not found in other coated steel sheets
- Surface roughness encourages paint adhesion and provides base for finishing

Uses

- **Automobile**
Underbody parts, reinforcing parts
- **Outdoor**
Roofing, siding, shutters, doors, and traffic signs
- **Indoor**
Air conditioner housings, commercial refrigerators, washing machines, steel furniture, office machines, furnaces, and ovens

Aluminized Steel - Al-Might

Features

- Aluminum coated steel sheets offer high-grade resistance to corrosion and heat
- Excellent heat reflective and good formability
- Beautiful finish even under high temperature

Uses

- **Automobile**
Exhaust pipes, mufflers, catalytic converters, auto heat shields
- **Indoor**
Chimneys, fireplaces, stoves, heat exchangers, water heaters, furnaces, barbecue grills, ovens, and toasters

	Coating Cross Section	Corrosion Resistance	Heat Resistance	Formability	Weldability	Paintability
Galvanealed Steel Starzinc-Alloy		•	•	•	••	••
Aluminized Steel Al-Might		•	••	•	•	•
