Netceed

The future of communications, delivered today.

Learn more at **netceed.com**

Overview

Netceed is a global leader in telecom and broadband solutions that includes a one-stop-shop, core to network edge portfolio of products and services. Leveraging our intelligent distribution systems, state-of-the-art supply chain solutions, and customized products and services, we're redefining what a materials distributor and value-added services provider looks like.

1 million+ sq ft of warehousing and storage capacity

600,000+ network product deliveries annually

70,000+ SKUs of network materials

8 million+ miles of fiber distributed annually

nearly 1,000 manufacturing and supply partners

1,250+ experienced and dedicated team members

Together, our expanded global footprint includes 40 locations across 14 countries, relationships with nearly 1,000 manufacturing and supply chain partners, and an enhanced service portfolio all while staying true to our 30-year legacy of succeeding together with our customers and partners.

With certified engineers and technicians, and experienced management and staff, we can help you plan, deploy, and maintain your network, while our expansive range of logistics services provides worry-free supply chain management.

- Network Advisory, Design, Planning
- Multi-Vendor Custom Configurations
- Pre-Wired Enclosures & Cabinets
- Custom Network Deployment Kits
- Pre-Configured Equipment

- Pre-Cut Fiber Cable
- Customer Asset Management Program
- Installation Services
- Managed Services
- Maintenance Services
