

Drop-Line Installation Hardware

O-Span Clamp

A-1

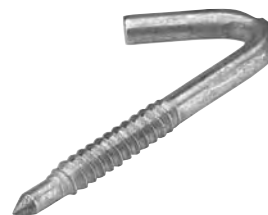

O Span Clamp – Provides service drop attachment point at CATV & Telco strand – High-Strength Machined Aluminum Jaw Clamp – Anti-Slip Twist Bolt Design – Ideal for Mid-Span Applications – Used with all common strand sizes – $\frac{3}{8}$ " Corrosion Resistant Galvanized Steel Bolt

J-Drive Hook

A-6

3- $\frac{3}{4}$ " J Drive Hook – Provides CATV service drop attachment point on utility pole – Threaded Conical Shank suitable for installation in Wood or Masonry – Corrosion Resistant Galvanized High-Strength Steel

Brass-Bonding Clamp

A-8A

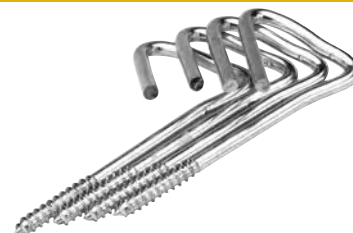

Strand-Ground Bonding Clamp – Electrically bonds CATV and Telco Strand to Ground Wire – Tin Plated Die-Cast Brass Clamp – Used with all common strand sizes – $\frac{5}{16}$ " x 1" Copper-Plated Brass Bolt

P House Hook

A-10

3- $\frac{3}{4}$ " P House Hook – Provides convenient point to attach CATV messenger cable - Easy-glide plating for Effortless Insertion – Threaded Conical Shank suitable for installation in Wood or Masonry – Corrosion Resistant Nickel-Bonded Steel

Tap Bracket

A-22

12" Aluminum Tap Stand-Off Bracket - Provides distance between CATV line equipment and transmission cables – Width 1" – Thickness 0.12" – Corrosion Resistant Galvanized Steel Bolt
