

ARMADILLO [®] Stainless (with Fire Retardant Drillable End Plates)

ARMADILLO Stainless with Fire Retardant Drillable End Plates

The ARMADILLO Stainless with Fire Retardant Drillable End Plates is a custom system designed to upgrade existing vault closures without disturbing the splices or interrupting the service. This system can also be used for new construction

Each ARMADILLO Stainless Vault Closure is customized in our factory for the specific splice and shipped in a single carton with the location and closure identification clearly marked.

Simply fill out a PLP Vault Closure Ordering Form for each vault splice. Contact PLP if you need assistance with filling out the form.

Each ARMADILLO Stainless Vault Closure comes with all the materials required for installation and the End Plates have been custom-drilled in our factory which eliminates any field drilling.

The ARMADILLO Stainless Vault Closure System is designed to remain watertight for water depth up to 10 feet. Each closure is also designed to meet or exceed the industry standards for fire retardancy.
