Product Data Sheet

Fiber Optic 4U Rack Mount Patch Panel

Descri	pti	on

Multicom's fiber optic 4U rack mount patch panel is designed for space saving and high-density applications. The patch panel is made of 16 gauge cold rolled steel (CRS) with a black powder coated finish. Equipped with a removable back cover, mobile wire saddles, and extended front cable entrance, it allows a simplified front access, inside-panel manipulation and splices. Adapter strips up to 288 fibers, or cassettes can be installed into the 12 LGX cut-outs using their push pin mechanism.

Features and Benefits

Compact design for space saving Fits 12 slim splice trays part number SPL-MSPL6 (not included). Mobile wire saddles For technical reference, refer t6lim Fiber Removable back cover Optic Splice Tray - 12 Fiber PDS-0126)

Extended front cable entrance

Installation hardware Enhanced panel depth to 17 inches and instructions manual included

Fits 12 LGX adapter strips and cassettes

Compatible with 19" and 23" racks and cabinets

Applications

Entrance facility Data center

Central office

Telecommunications room Equipment room

Cellular tower base station Can fit up to 4 levels of management spools

(Part number WW000066)

Certification and Compliance

TIA-569-B CEA/EIA-310-E ANSI/TIA/EIA-606-A GR-449-CORE

Commercial Building Standard for Telecommunications Pathways and Spaces. Cabinets Racks, Panels and Associated Equipment standard.

Consolidation point

Administration Standad for Telecommunications Infrastructure.

Generic Requirements and Design Consideration for Fiber Distributing Frames. **UL 94** Tests for Flammability of Plastic Material for Parts in Devices and Appliances. RoHS Directive on Restriction of Hazardous Substances.
