For 1.0 meter and smaller antennas

The mount components are powder-coated, pre-galvanized steel.

Small Non-Penetrating Roof Mount

MODEL 611617401/02

The Skyware Global small non-penetrating roof mount has been specifically designed for our line of small VSAT antennas. Mechanically tested and field proven, the mount meets the performance requirements of demanding commercial applications.

The non-penetrating roof mount is designed to be used on a flat roof and has provisions for concrete block ballast. The mount components are powder-coated, pre-galvanized steel. All hardware is plated for excellent corrosion resistance.

Model 6116174XX has a 60 mm (2.38") O.D. mast and a .9m x .9m (36" x 36") base, which is designed for 75 cm and 84 cm antennas.

This model can also be used with 1.0 m antennas with a "hybrid" 60 mm (2.38") Az/EI cap when high windloads are not expected.

- Tray type mount. Use cored or solid blocks.
- Model 611617402 includes rubber roof pads.
- Ballast tailored to site requirements.
- UPS shippable single carton packaging
- All materials comply with EU directive No. 2002/95/EC (RoHS)
