

# OmniSmart UPS System

Line-interactive UPS corrects severe brownouts and overvoltages

## Model #: OMNISMART300PNP

- ▶ 300VA line interactive, tower UPS system
- ▶ Corrects brownouts and overvoltages from 75 to 147V
- ▶ 3 protected outlets
- ▶ USB communications port and PowerAlert UPS Monitoring Software (available via free download)
- ▶ Single line tel/DSL line surge suppression
- ▶ \$200,000 Ultimate Lifetime Insurance (USA & Canada only)

## DESCRIPTION

---

Tripp Lite's OMNISMART300 line interactive UPS system offers voltage regulation, surge suppression and long lasting battery support for personal computers, internetworking equipment and other sensitive electronics. Large internal battery supports entry level PC systems for up to 30 minutes during power failures so that connected equipment can be shutdown without data loss. Automatic Voltage Regulation (AVR) circuits regulate brownouts as low as 75 volts and overvoltages as high as 147 back to normal 120V levels without consuming battery power. Offers complete desktop power protection in an attractive gray upright tower configuration. Includes 3 battery supported outlets with full AC surge suppression. USB port enables optional unattended system shutdown without data loss in the case of extended power failure, USB cable included. PowerAlert software available via free download from [www.tripplite.com](http://www.tripplite.com). Built-in dataline protection jacks offer protection of a single dialup phone/DSL line. Built-in audible alarm and 4 front panel LEDs indicate line power status, battery power status, battery low/replace status and voltage regulator operation. 300VA / 180 watt power handling ability supports entry-level PCs, network workstations, point-of-sale equipment, small business phone systems, audio/video equipment and home theater systems. Offers 14 minutes battery runtime with a full load of 300VA/180 watts and 32 minutes with a half load of 150VA/90 watts. Supports battery replacement via built-in access panel. 2 year warranty. \$200,000 connected equipment insurance (USA & Canada only).

## KEY BUYING POINTS

---

- OMNISMART300 line interactive UPS system offers voltage regulation and battery support, plus complete AC and dialup/DSL line surge suppression
- Supports entry level PC systems for up to 30 minutes during power failures to enable a safe system shutdown
- Supports a maximum load of 300VA/180 watts for 14 minutes and a half load of 150VA/90 watts for 32 minutes
- Automatic Voltage Regulation (AVR) circuits correct brownouts as low as 75 volts and overvoltages as high as 147 back to normal 120 volt levels without using battery power
- Attractive gray tower configuration
- Includes 3 battery supported outlets
- Built-in USB port supports PowerAlert UPS Power Management Software (available via free download at [tripplite.com](http://tripplite.com)) and cabling provides monitoring of in-depth site power conditions, full UPS status and fault warnings, output load level and load bank power control
- Supports Tripp Lite's WatchDog Service Monitoring/Rebooting Software (part# WATCHDOGSW)
- Built-in dataline suppression jacks protect a single dialup phone / DSL line
- Built-in audible alarm and 4 front panel LEDs indicate UPS system and line power status
- 500VA / 300 watt power handling ability supports a variety of computer, internetworking, telecom and consumer electronics equipment
- Supports battery replacement via built-in access panel
- Compatible with 120V / 60Hz applications for USA, Canada, Mexico and more
- 2 year manufacturer's warranty
- \$200,000 connected equipment insurance (USA & Canada only)

## TYPICAL APPLICATIONS

---

- Entry-level PCs, networked workstations, point-of-sale equipment, small business phone systems, audio/video equipment and home theater systems. Ideal for sensitive electronic applications in areas where brownouts and overvoltages are common.
